

Megan is the Chief Marketing Officer and one of the four founders of Hydro Gauge. At her prior business adventures, Megan had run and occasionally implemented the marketing technique used to best access outside sources and ultimately expand the user base while also overseeing large and small teams alike. She has over 8+ years of combined marketing and management experience that she uses to drive the company forward towards success by increasing outreach to both consumer and commercial businesses as well as ensuring the marketing team inside is used to their full potential. This includes overseeing products, brands, advertising, and events in order to build and develop the business. Since she was a child Megan had a passion for the environment and helping others which is why her involvement in Hydro Gauge is so personal.
